

ZeroSixtyThree — Image Checklist

Every image slot on the site, verified against the code on **2026-08-25**. Sections not listed here contain no images at all and need nothing. **Ratio** is what the layout crops to — supply at that ratio or the crop will cut your subject.

- P1 — blocking / looks broken now
- P2 — real but too low-resolution
- P3 — nice to upgrade
- OK — done, no action

The single biggest issue: almost every photo on the site today was recovered by cropping 1366 px-wide screenshots of your old website. Most are between 190×142 and 226×348 pixels — they are being displayed 3–8× larger than their real size, which is why they look soft. Replacing these is the highest-value thing you can do. This is tracked as **BLOCKER B2**.

1 — HOME PAGE

✓	SLOT	RATIO	SUPPLY AT	WHAT THE PICTURE SHOULD SHOW	WHAT'S THERE NOW	PRI
☐	Hero background full-screen plate	16:9	2560×1440	Wide landscape of a live setup — truss, lighting rig, stage, flight cases. Shot must have empty/dark space on the left half , because the ZERO SIXTY THREE wordmark sits there. Busy detail on the right is good. Low light / moody is ideal; it is desaturated to black & white automatically.	1600×900 upscaled from 1366	P2
☐	Hero — main frame large portrait, right side	4:5	1200×1500	A person <i>working</i> — camera operator filming, engineer at the desk. Vertical crop. This is the hero image people look at, so make it your strongest shot.	226×348	P1
☐	Hero — small frame overlaps the main frame	5:4	1000×800	A tight detail shot that contrasts the main frame — drum kit, mixer faders, cabling, a lit stage. Small on screen, so it must read at a glance.	512×408	P2
☐	Two Houses — LEFT 063 Productions panel	8:9 near-square	1600×1800	The rugged mood: loud, energetic, crowd, stage lights, live performance. Sits behind text at 30–45% opacity, so avoid busy centres.	664×444	P2
☐	Two Houses — RIGHT 063 Society panel	8:9 near-square	1600×1800	The elegant mood: refined banquet, tasteful lighting, table settings, an upscale private event. Must feel calm and premium — the opposite of the left panel.	PLACEHOLDER grey SVG frame	P1

✓	SLOT	RATIO	SUPPLY AT	WHAT THE PICTURE SHOULD SHOW	WHAT'S THERE NOW	PRI
☐	About collage 3 stacked frames	2:3	800×1200 × 3 images	Three vertical frames that work as a set: e.g. hands on a mixer, an empty rigged stage, a camera operator. Different subjects, same visual family.	226×348 each	P1
☐	Event list previews appear on hover	4:3	600×450 × 6 images	One per category, in this order: 1 Corporate Events & Seminars · 2 Concerts & Festivals · 3 Weddings · 4 Sports Events · 5 Community & Charity · 6 Themed Events. Each must instantly read as that event type.	~190×145 each	P1
☐	Services closing band full-width strip	21:9 cinematic	2560×1080	A wide, dramatic establishing shot — full stage and truss before doors open, or a packed venue. Very wide crop, so the subject must survive heavy letterboxing.	1240×308	P2

2 — ABOUT PAGE

✓	SLOT	RATIO	SUPPLY AT	WHAT THE PICTURE SHOULD SHOW	WHAT'S THERE NOW	PRI
☐	About tiles row of 5 frames	2:3	800×1200 × 5 images	Five vertical frames covering the range of what you do — guitar/performer, mixing console, rigged stage, camera operator, camera & photos. They sit at staggered heights, so each must stand alone.	226×348 each	P1
☐	About story frame tall, drifts on scroll	3:4	1200×1600	One strong portrait-orientation shot of the team at work — a cinema camera rig on a shoot, or an engineer mid-setup. Held large next to the story text.	664×448	P2

3 — SERVICES PAGE

✓	SLOT	RATIO	SUPPLY AT	WHAT THE PICTURE SHOULD SHOW	WHAT'S THERE NOW	PRI
☐	Bento — feature tile Audio Rental, largest	4:3	1600×1200	Audio equipment hero shot — mixing desk, speaker stacks, racks. Sits behind the tile text at ~25% opacity, so keep the middle relatively calm.	1366×262 wrong shape	P2
☐	Bento — Singers	4:3	1200×900	A performer or band mid-performance on a lit stage.	512×408	P2

✓	SLOT	RATIO	SUPPLY AT	WHAT THE PICTURE SHOULD SHOW	WHAT'S THERE NOW	PRI
☐	Bento — DJ Services	4:3	1200×900	DJ decks / controller with hands on them, ideally with crowd or lighting behind.	964×192 wrong shape	P2
☐	Bento — Sound Engineering	4:3	1200×900	Engineer at front-of-house, focused on the desk.	664×444	P2
☐	Bento — Sports Announcing currently no image	4:3	1200×900	OPTIONAL — empty by design. Two bento tiles are deliberately text-only so the grid has breathing room. Only supply if you want every tile to carry a photo. Would be: announcer with a mic at a sports event.	intentionally none	P3
☐	Bento — Hosting & Emcee currently no image	4:3	1200×900	OPTIONAL — empty by design, same as above. Would be: emcee hosting on stage with an audience.	intentionally none	P3

4 — 063 SOCIETY PAGE — nothing real exists yet

No Society photography has ever been supplied (BLOCKER B4). All three slots below render a grey placeholder frame today. Society is the *elegant* brand — these must look clearly different from the Productions imagery: calmer, more refined, more space, softer light. Do not reuse the concert/stage photos here.

✓	SLOT	RATIO	SUPPLY AT	WHAT THE PICTURE SHOULD SHOW	WHAT'S THERE NOW	PRI
☐	Society hero	4:5	1200×1500	The single defining Society image. An elegant, restrained moment — a beautifully set table, refined venue detail, a tasteful private event. Vertical.	PLACEHOLDER	P1
☐	Society gallery — wide	3:2	1800×1200	A wider elegant scene — the room in full, styling and lighting visible.	PLACEHOLDER	P1
☐	Society gallery — tall	4:5	1200×1500	A detail that rewards a close look — glassware, florals, place setting, a considered corner of the room.	PLACEHOLDER	P1

5 — PORTFOLIO & COLLABORATIONS — Developer 2's pages

✓	SLOT	RATIO	SUPPLY AT	WHAT THE PICTURE SHOULD SHOW	WHAT'S THERE NOW	PRI
☐	Portfolio gallery 7 frames	4:3 mixed ok	1600×1200 × 7+ images	Your actual best work — real events you delivered. Currently borrowing the same 7 scene photos used elsewhere on the site, which is why the portfolio does not yet feel like a portfolio. This is the page that wins you jobs. Send as many as you have.	reused site photos	P1
☐	Video reel posters optional	16:9	1280×720	Only needed if you want custom thumbnails. Otherwise YouTube's own thumbnail is used automatically. Blocked on B9 — the YouTube links themselves are still missing.	no videos yet	P3
☐	Partner logos	2:1 wide	SVG preferred or 800×400 PNG transparent	One logo file per partner, on a transparent background. Blocked on B8 — we also need written permission per partner before their mark can be displayed.	none — page empty	P2
☐	Partner project shots	4:3	1200×900	A photo per collaboration project, plus which project belongs to which partner. Blocked on B8.	none — page empty	P2

6 — BRAND & SHARING ASSETS

✓	SLOT	RATIO	SUPPLY AT	WHAT THE PICTURE SHOULD SHOW	WHAT'S THERE NOW	PRI
☐	Social share image shown on FB / WhatsApp / LinkedIn	1.91:1	1200×630	Currently auto-generated from the logo and brand colours — functional but plain. A real photo with the logo over it would look far better when someone shares the link. Optional upgrade.	generated, works	P3
☐	Logo — light	1:1	512×512	Supplied and in use across the dark site.	done	OK
☐	Logo — dark for Society's pale pages	1:1	512×512	Supplied and in use.	done	OK
☐	Favicon / app icons	1:1	512×512	Derived from the logo. No action needed.	done	OK

SECTIONS THAT NEED NO IMAGES

Verified in code — these are typography-only by design and require nothing from you: **Service ticker** · **Manifesto** · **Services preview** · **Mid-page CTA band** · **Testimonials teaser** · **Final CTA** · **About hero** · **Services hero** · **Society statement** · **Society categories** · **Society CTA** · **Contact details** · **Booking form**.

Two rules when you export from Canva

1. Export at the pixel sizes above, not smaller. The sizes are already 2× so the images stay sharp on phones and retina laptops. Anything smaller will look soft — that is exactly the problem the current photos have.

2. Match the ratio. The layout crops to the ratio shown. If you send a square image for a 21:9 slot, the top and bottom of your subject get cut off. Colour and contrast do not matter much — several slots are automatically converted to black & white to match the brand.
